CAREER HISTORY

LEAD WEB DESIGNER

OCEAN EPIC - MAUI, HAWAII

2018 to Present

- Spearheaded website design projects from concept to completion; coordinated with clients to align project scope with their marketing and business goals
- Enhanced website visibility and search rankings by optimizing web pages for SEO; meticulously crafted meta tags, structured headings, and descriptive alt tags to improve accessibility and search engine indexing.
- Communicated proactively with clients to clarify requirements, provide status updates, and manage expectations; balanced multiple priorities to successfully deliver projects by deadlines
- Performed quality assurance and troubleshooting; fixed bugs within existing code and implemented enhancements that improved overall functionality

DIGITAL TECHNOLOGIST / WEB DESIGNER (CONTRACT)

VIVO360 INC. - ATLANTA, GEORGIA

January 2023 - October 2023

- Leveraged a diverse range of tools to create bespoke, custom-designed websites, ensuring seamless translation of Figma and PSD designs into functional WordPress sites (HTML, CSS, Elementor, Avada, JavaScript)
- Demonstrated expertise in responsive design, while keeping industry best practices in mind to deliver user-friendly experiences across multiple devices and screen sizes
- Collaborated closely with an interdisciplinary team to ideate, conceptualize, and develop creative web solutions, which effectively communicated brand messaging and engaged users
- Conducted thorough cross-browser testing and optimization to ensure consistent performance and compatibility across various platforms, browsers, and devices
- Employed design principles and visual storytelling techniques to create captivating and visually appealing web experiences
- Resolved web errors using Firebug and Chrome Inspector for debugging

FOUNDER / WEB DESIGNER

2016 - 2023

BEST WEB DESIGN JAMAICA - KINGSTON, JAMAICA

- Architected dynamic eCommerce websites for over 110 clients using HTML, CSS3, PHP, JavaScript, and other programming languages; achieved 99% client satisfaction rate
- Consulted with Web Developers and leadership teams to review design strategies, test wireframes, collect feedback, and provide required end-user training
- Utilized Elementor and WordPress to build a responsive site for one of the largest florists in Jamaica; the site created a digital asset that helped increased sales by 500%
- Implemented SEO and analytics strategies to improve site rankings, leading to increased traffic and sales
- Manage client's online reputation through social media, while addressing online customer reviews
- Provided maintenance services including backups, uptime monitoring, and security scans for threats

SENIOR WEB DEVELOPER

2013 - 2016

INTERNET INCOME JAMAICA - KINGSTON, JAMAICA

- Designed user-friendly websites for local and international businesses using HTML, CSS3, PHP and JavaScript; consulted with clients to scope out requirements and identify project milestones
- Developed curriculum and taught WordPress training course to hundreds of students

FREELANCE WEB DEVELOPER

2012 - 2013

MC SYSTEMS - KINGSTON, JAMAICA

- Revamped company's website via WordPress, optimizing navigation, content, and sales funnel to increased visitor-to-lead conversion
- Quickly became proficient in WordPress and took over full management of website operations
